

Subject Index: Volume 23, 1998

- ABA (American Board of Anesthesiology), historical aspects, 7
- Additives
duration of spinal anesthesia and, 352
for epidural analgesia for labor, 531
- Adhesion lysis, by epidural catheter, intravenous catheter introducer for, 427(letter)
- Adrenergic neurotransmission, inhibition by lidocaine and bupivacaine, 409
- Adverse drug events
detecting using spontaneous reports, 183S
monitoring, MedWatch reporting system for, 190S
- Age, postdural puncture headache and, 374
- Airway obstruction, from hematoma following stellate ganglion block, 516
- Alpha-2 adrenergic agents, intrathecal, safety of, 357
- Ambulatory surgery
analgesia, extended epidural catheterization, infections from, 491
anesthesia
peripheral nerve blocks for, 241
urological, eutectic mixture of local anesthetics for, 502
discharge criteria, after hyperbaric spinal anesthesia, 159
paravertebral somatic nerve block for, 306
- American Board of Anesthesiology (ABA), historical aspects, 7
- American Society of Regional Anesthesia (ASRA)
annual meeting, scientific abstracts of, 1S
historical aspects, 7
- Ammonium sulfate, intrafascicular injection in immature rats, vs. bupivacaine, 152
- Anesthesia technique
intravenous catheter introducer for epidural catheter lysis of adhesions, 427(letter)
MRI for cross-sectional approach to interscalene block, 71
needle-through-needle vs. double-segment, 390
postdural puncture headache and, 374
volume effect, during combined spinal-epidural anesthesia, 92
- Anticoagulation
with heparin. *See* Heparin
low-molecular weight heparin, 135S
and neuraxial block, 129S
- Antiplatelet therapy
low-molecular weight heparin and, 135S
perioperative spinal hematoma development and, 146S
- Aspirin
perioperative spinal hematoma development and, 146S
thromboembolism prophylaxis, European guidelines for, 178S
- ASRA. *See* American Society of Regional Anesthesia
- Axillary technique, for brachial plexus nerve block, 109(letter)
- Axonal degeneration, after intrathecal glucose vs. lidocaine, 444
- Back pain
radiating, from hyperbaric spinal anesthesia, 605
transient, after spinal anesthesia with mepivacaine and lidocaine, 511
- Baricity
intrathecal drug spread and, 347
tetracaine spinal anesthesia and, 170
- Beta blockers, intravascular injection detection and, 9
- Blood flow
cerebral, spinal anesthesia for TURP and, 119
velocity changes in carotid and vertebral arteries with stellate ganglion block, 600
- Body mass index, lumbar epidural depth and, 262
- Book reviews
Anesthesia and Uncommon Diseases (Benumof), 330
Clinical Neuroanesthesia, 2nd Ed. (Cucchiara, Black and Michenfelder), 623
Decision Making in Pain Management (Ramamurthy and Rogers), 233
The Management of Pain (Ashburn), 623
Obstetric Anesthesia and Uncommon Disorders (Gambling and Douglas), 428
Positioning in Anesthesia and Surgery, 3rd Edition (Martin and Warner), 233
- Brachial plexus block
axillary technique, 109(letter)
controversies, 126
cross-sectional anatomy, defining with MRI, 77
infraclavicular, effects on respiratory function and extent of block, 564
interscalene, analgesic effect using low-dose bupivacaine, 469
paresthesias during, 230(letter)
supraclavicular technique, 109(letter)
- Bradycardia
fetal, combined spinal epidural analgesia and, 111(letter)
sudden, during intrathecal meperidine, 506

NOTE: S after page reference denotes supplement article.
